## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 33 and 34 are objected to because of the following informalities:
  - a. In claim 33, it is suggested that “wherein” be inserted at the beginning of line 11 on page 61 for clarity. Also, it is suggested “that” be deleted at the beginning of line 15 for clarity.
  - b. In claim 34, it is suggested that “the group consisting of” be inserted at the end of line 11 on page 62.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claim 33 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 33 refers to “the anthracene derivative” of claim 27, but claim 27 does not recite an anthracene compound. Accordingly, the meaning of claim 33 is not fully understood.

Clarification and/or correction are required.

### ***Allowable Subject Matter***

4. Claims 1-32 and 35-37 are allowed. The prior art fails to teach a device with multiple light emitting layers in combination with a mixed-type metal-doped electron transporting layer as specifically required by these claims.
